

rear 6 - Summer Term

Key Vocabulary		
Discrimination	An unjust treatment of people/person, usually related to ethnicity, age, gender or disability	
Holocaust	Destruction or slaughter on a mass scale	
Equality	Ensuring every individual has an equal opportunity to make the most of their lives and talents	
Prejudice	Forming an opinion that is not based on reason or actual experience	

### The Holocaust

The Holocaust is one of the most terrible events in human history. It occurred during World War II when Adolf Hitler was leader of Germany. Six million Jewish people were murdered by the Nazis. This included 1 million Jewish children. Millions of other people that Hitler didn't like were killed as well. This included Polish people, Catholics, Serbs, and disabled people. It is thought that the Nazis murdered as many as 17 million innocent people.

## Our Artist Focus: Frida Kahlo

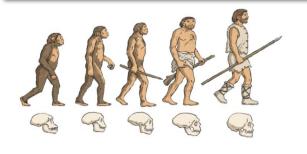

- Frida was born in Mexico in 1907.
- She is famous for her self-portraits.
- When asked why she painted selfportraits, she replied 'I paint selfportraits because I am so often alone, because I am the person I know best.'
- Her self-portraits are famous for their pain and passion, and bold vibrant colours.

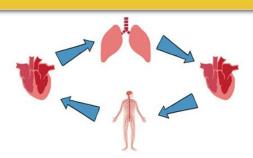

Key Vocabulary	
Adaptation	A change of a trait (or characteristic) to improve a living things chance of surviving and reproducing.
Habitat	A specific area or place in which particular animals and plants can live.
Inheritance	This is when characteristics (or traits) are passed to offspring from their parents.
Offspring	A parent's child/children or an animals young.
Variation	A change or slight difference

#### WHAT IS EVOLUTION?

- Evolution is a process of change that takes place over many generations, during which species of animals, plants, or insects slowly change some of their physical characteristics. This is because offspring are not identical to their parents.
- It occurs when there is competition to survive. This is called natural selection.

# The Circulatory System

The circulatory system is a network within the body that consists of blood, blood vessels, and the heart. It supplies tissues in the body with nutrients and oxygen, and also transports hormones and removes waste products that the body doesn't need.

# The eatwell plate

Use the eatwell plate to help you get the balance right. It shows how much of what you eat should come from each food group.

#### The Eatwell Plate

A balanced diet is a diet that contains different kinds of food in certain quantities and proportions. Your body is given the nutrients it needs to function correctly. It is made up of fruits, vegetables, carbohydrates, dairy, meats and proteins.
